Re: Interim Response to Citizen Letters

Dear Ms. Grass-Redfox:

I am writing in response to the two letters dated September 26, 2018, which you forwarded to the Environmental Protection Agency (EPA). In those letters, the signatories requested that EPA address groundwater contamination in Juneau and Wood Counties, Wisconsin.

Please be assured that EPA has been working collaboratively with the Wisconsin Department of Natural Resources and with Juneau and Wood Counties to protect public health. EPA is committed to keeping you apprised of progress.

We hope to be able to contact you soon with additional information. In accordance with your November 27, 2018 conversation with Cheryl Burdett of the EPA Region 5 Water Division, please forward this response to each of the signatories of the letters.

Sincerely,

Linda Holst
Acting Director, Water Division
